Both matters were heard together by Judge Ayling and the testimony of several witnesses was taken to show that while John Eccles in his will called the Rock Nook home as a branch of the United Workers charity.

The counsel representing Wilmam B. GYMNASIUM CLASS FOR WOMEN IS ORGANIZED. Have 40 Members-O. H. Nickersen to Be Instructor.

Urgent requests on the part of several Norwich ladies have induced O. H. Nickerson, physical director of the Young Men's Christian association, to organize a ladies' gymnasium class to be known as the Ladies' Recreation and Health club. Mr. Nickerson has leased a hall which is admirably adapted for the purpose and the club will meet on Wednesday night of this week for the first time. It is not proposed to make the club a public one; on the contrary, it will be of a private nature, and present plans are to limit the membership to forty. Thirty-eight have already joined the club and it is expected that the remaining two names to make up the forty will be secured this week. The class will hold a series of twenty meetings throughout the winter and spring, concluding about the first of May, and the meeting night is to be Wednesday of each week.

Duril Ducharme and Miss Anna P. Fletcher Married Monday Morning-

At 7 o'clock Monday morning in the Sacred Heart church, Duril Ducharme and Miss Anna P. Fletcher were united in marriage by Rev. U. O. Bellerose, pastor of the church. Friends attended the couplet. The groom is the son of Xavier and Philomine Lucier Ducharme, 23 years of age and is employed in the Ponemah mills. The bride has been employed in a local factory and is the daughter of Thomas H. and Nellie Bellion Fletcher. After a short wedding tour the couple will reside here.

Personals and Notes. Fred Kilpatrick is visiting a few days in Plainfield. William Kendall was a visitor in Jewett City Sunday.

Mr .and Mrs. John Girard of Cana-da are visiting here. They were form-er residents of this village.

If you will forswear the curling iron and follow the simple plan here suggested, you will be surprised beyond words to see hot only the beautiful ourl, but the soft fluffiness and lively lustre your har will acquire. The plan—merely to apply to the hair before retiring a little pure silmerine (in liquid form), using a clean tooth brush for the purpose. The most effective way is to divide the hair into strands, moistening each of them separately from root to tip.

The delightful wavy effect in evidence in the morning will suggest to any stranger that your hair is "naturally curly." The effect will hast a considerable time and if you'll get a few ounces of liquid silmerine from your druggist you will have a supply for months. This, by the way, will leave no sticky or greasy trace and cannot harm hair or scalp in any way. The hair will be quite manageable at all times, no matter how you do it up. Mosaup.—Mrs. J. Harding Baker has been visiting Mrs. William Allen. She expects later to occupy the home place recently vacated by M. J. Reynolds.
